Telephone Number At Processing Location (410) 290-6999	Name of Managing Officer At Processing Location Susan Regan & Karen Phillips

Application(s) Processed And Services Performed *(Indicate both present and planned services.)*

Olson Research offers a service called A/L BENCHMARKS which is driven by Call Report data and enhanced by submitting supplemental assumptions. Olson provides numerous supplemental schedules that allow client banks to refine the analysis. Furthermore, securities downloads from bond accounting systems, and loan downloads from the client's application system are also required. In addition, bank's can request custom modeling to capture unique characteristics of the balance sheet. Banks submit this information to Olson which runs the model offsite and provides output back to the banks.

A/L BENCHMARKS is an affordable outsourcing solution to A/L management modeling. With minimal quarterly inputs from the bank, A/L BENCHMARKS will provide a detailed present value analysis of the balance sheet including EVE and an Earnings at Risk analysis. The output provides a bank with details of all reports, an Executive report package, and a Board report package. Olson provides its clients with Peer statistics allowing a bank to "benchmark" its performance against regulatory requirements and industry performance.
